ABOUT HUBDEX STORE LTD

HUBDEX STORE LTD is a Somalia- and Kenya-based e-commerce and logistics company delivering integrated freight, trade facilitation, and digital commerce solutions across the Horn of Africa and beyond. With operations anchored in Mogadishu and Nairobi, we bridge the gap between businesses and the global marketplace through reliable transportation, technology-driven tracking, and end-to-end supply chain support.

Our mission is to simplify trade and logistics for businesses of every size — from small importers to large-scale distributors — by combining dependable physical logistics with modern digital infrastructure. We understand the unique operating environment of the region and have built our services around what businesses in Somalia and Kenya actually need: speed, transparency, and trust.

Our Vision

To become the leading e-commerce and logistics partner in the Horn of Africa, recognised for reliability, innovation, and the seamless connection of local businesses to global markets.

Our Mission

To deliver dependable, technology-enabled logistics and e-commerce solutions that empower businesses across Somalia, Kenya, and the wider region to trade with confidence, efficiency, and full visibility over their supply chains.

Our Core Values

- ◆ **Reliability:** We deliver on our commitments, on time and as promised.
- ◆ **Integrity:** We operate with transparency and honesty in every transaction.
- ◆ **Innovation:** We invest in technology — GPS tracking, digital payments, ICT systems — to keep our clients ahead.
- ◆ **Customer Focus:** Every service is built around the real needs of the businesses we serve.
- ◆ **Regional Expertise:** Deep, on-the-ground knowledge of the Somalia–Kenya trade corridor.

WHY CHOOSE HUBDEX STORE LTD

Businesses across the region choose HUBDEX STORE LTD because we combine the reliability of an established logistics operator with the agility of a modern, technology-driven company. We don't just move cargo — we manage the full journey of your business, from procurement to final-mile delivery.

- ◆ **Dual-Country Presence:** Fully operational offices in Mogadishu, Somalia and Nairobi, Kenya, giving clients a single, trusted partner on both sides of the corridor.
- ◆ **Full-Service Logistics:** Air freight, sea freight, import/export, local transportation, and door-to-door delivery under one roof.
- ◆ **Technology-Enabled Operations:** GPS tracking, fleet management systems, and digital payment integration for real-time visibility and control.
- ◆ **E-commerce Enablement:** Support for businesses selling online, both regionally and worldwide, including fulfilment and digital payment processing.
- ◆ **ICT & Business Support:** Hardware supply, connectivity solutions, and business consultancy to support your broader operations, not just your shipments.
- ◆ **Experienced Team:** A team that understands regional trade regulations, customs processes, and the practical realities of moving goods in and out of Somalia and Kenya.

Our Coverage

From our Mogadishu office at KM4, Airport Road, Hotel Afrik Building ABC, and our Nairobi office on Argwings Kodhek Road, KOSE HEIGHTS, we coordinate shipments and services across both countries and connect clients to international shipping and air cargo networks worldwide.

OUR COMPETITIVE ADVANTAGE

The Somalia–Kenya trade corridor presents real operational challenges: complex customs procedures, limited infrastructure in some areas, and the need for partners who understand both the regulatory environment and the practical realities of moving goods across borders. HUBDEX STORE LTD was built specifically to address these challenges.

Strategic Location

Our dual-office presence in Mogadishu and Nairobi places us at the heart of one of the region's most important trade corridors. This means faster coordination, local knowledge of customs and port procedures, and a physical presence our clients can rely on at both ends of their supply chain.

Integrated Service Model

Rather than requiring clients to coordinate separately with freight forwarders, customs agents, local transporters, and technology vendors, HUBDEX STORE LTD brings these functions together under a single point of contact. This reduces friction, shortens timelines, and gives clients one accountable partner for the entire journey of their goods or digital operations.

Investment in Technology

We continue to invest in the systems that make modern logistics possible — GPS tracking, fleet management software, and digital payment infrastructure. These tools give our clients the same level of visibility and control they would expect from logistics providers anywhere in the world.

Commitment to Growth-Stage Businesses

Many of the businesses we work with are scaling quickly — moving from occasional imports to regular shipping schedules, or from physical retail into e-commerce. Our service model is built to grow alongside our clients, from a single shipment to an ongoing logistics and digital commerce partnership.

OUR SERVICES

HUBDEX STORE LTD offers a comprehensive range of services organised across three core areas: Logistics & Freight, Digital & Technology Solutions, and Business Consultancy. Together, these services give our clients everything they need to move goods, run digital commerce, and grow their operations.

Logistics & Freight Services

Air Freight

Fast, reliable international and regional air cargo solutions for time-sensitive shipments.

Sea Freight

Cost-effective FCL and LCL ocean freight services connecting Somalia, Kenya, and global ports.

Import & Export

End-to-end customs clearance, documentation, and cross-border trade facilitation.

Door-to-Door Delivery

Complete pickup-to-delivery logistics that removes the guesswork from shipping.

Local Transportation

Dependable inland trucking and distribution across Somalia and Kenya.

Supply Chain & Procurement

Sourcing, vendor management, and procurement support tailored to your business needs.

Fleet Management

Vehicle tracking, maintenance scheduling, and fleet optimisation for logistics efficiency.

GPS Tracking Solutions

Real-time cargo and vehicle tracking for full visibility across every shipment.

OUR SERVICES (continued)

Digital & Technology Solutions

E-commerce Worldwide

Enabling businesses to sell and fulfil orders across borders through integrated e-commerce solutions.

Digital Payment Solutions

Secure, modern payment processing for online and offline commerce.

ICT Solutions

Practical IT infrastructure, systems, and support for growing businesses.

Hardware Supply

Sourcing and supply of computing, networking, and office hardware.

Internet & Connectivity

Reliable internet and connectivity solutions for offices, warehouses, and retail points.

Business Support

Business Consultancy

Strategic guidance on logistics, trade, and digital transformation for businesses entering or scaling in the Somalia-Kenya corridor.

HOW WE WORK

Our approach is built around a simple principle: your goods and your business deserve a logistics partner who treats them as if they were our own. Every engagement — whether a single shipment or an ongoing e-commerce fulfilment contract — follows a structured, transparent process.

1 Consultation

We understand your shipping, sourcing, or digital commerce needs before proposing a solution.

2 Planning

Routes, timelines, documentation, and costs are mapped out clearly, with no hidden surprises.

3 Execution

Our logistics and technology teams manage the movement of goods or the setup of digital systems.

4 Tracking & Reporting

GPS tracking and regular updates keep you informed at every stage.

5 Delivery & Support

Final-mile delivery and after-service support to close the loop on every engagement.

Industries We Serve

✓ Import & Export Traders

✓ E-commerce & Online Retail Businesses

✓ Manufacturing & Distribution Companies

✓ Humanitarian & NGO Logistics

✓ Retail & Wholesale Businesses

✓ Small and Medium Enterprises (SMEs)

QUALITY, SAFETY & COMMITMENT

Every shipment and service we handle is backed by clear processes designed to protect our clients' goods, data, and business reputation. Quality at HUBDEX STORE LTD is not an afterthought — it is built into how we plan, execute, and follow up on every engagement.

Cargo Handling & Safety

Our logistics team follows structured handling procedures for loading, transport, and storage, minimising the risk of damage or delay. Vehicles used for local transportation and door-to-door delivery are maintained and tracked through our fleet management systems.

Documentation & Compliance

Import, export, and customs documentation is prepared and reviewed carefully to reduce the risk of delays at borders and ports. Our team stays current on the regulatory requirements affecting trade between Somalia, Kenya, and international partners.

Data & Payment Security

Our digital payment and e-commerce solutions are built around secure processing practices, protecting both our clients and their customers in every transaction.

Client Communication

We believe clients should never have to chase updates on their shipments or projects. Through GPS tracking and proactive communication, our team keeps clients informed from the moment an order is placed to final delivery.

PARTNER WITH US

Whether you are importing goods for the first time, scaling an e-commerce operation across borders, or looking to modernise your business technology, HUBDEX STORE LTD is positioned to be a long-term partner — not just a one-time service provider.

For Importers & Exporters

We manage the logistics complexity so you can focus on your business — from sourcing and freight through to customs clearance and final delivery.

For E-commerce Businesses

We provide the fulfilment, payment, and connectivity infrastructure needed to sell confidently across Somalia, Kenya, and international markets.

For Organisations Needing ICT & Business Support

Beyond logistics, we supply hardware, connectivity, and consultancy services to help your business run on solid technology foundations.

Let's Start the Conversation

Every partnership begins with understanding your specific needs. Contact our team to discuss how HUBDEX STORE LTD can support your logistics, e-commerce, or technology requirements.
